About Us...

At Fantasea Charters, we pride ourselves on our personal and thorough knowledge of the yachts and their crews so that we can best match our guests with a "perfect fit" for their holiday.

We enjoy taking the time with our clients to ensure their vacation is everything they've ever dreamed of. We ask our guests questions so that we can get to know their personal likes and dislikes. We encourage our clients to ask us all the questions they can come up with. We offer unsurpassed service with no pressure.

We handle all of the important communications with the yacht and crew well in advance of our guests charter. We make sure that every detail of your dream vacation has been covered.

Our owners and staff attend multiple yacht shows each year, inspecting the boats and getting to know any new crews.

We specialize in planning charters in the stunning British Virgin Islands, but will be happy to assist you in planning a yacht vacation anywhere in the world. Your wish is our command!

The best part of our service is that it is of NO COST TO YOU. We are compensated by the yachts. It is important that a crew spend their time tending to guests needs and not marketing their boat, which makes the professional services of a broker invaluable.

Would you prefer to crew your own yacht?

Exotic Destinations Await...

A charter yacht vacation is unlike anything you've ever dreamed of. You help us design your trip.... your destinations, your activities, and your itinerary, all orchestrated according to your tastes and desires. Think of your yacht as a floating 5 star resort, taking you from one beautiful island to the next.

An attentive crew will be awaiting your arrival, and will whisk you away to the yacht of your dreams. Set sail for beautiful island beaches, anchor in a calm and secluded cove, and dive into crystal blue waters.

Your crew is there to tend to your desires. They have already stocked the yacht with the food and drink of your choosing. Enjoy fine dining under the stars, sip your favorite chilled cocktail while listening to the sounds of a steel drum band off in the distance. Better yet, a quick trip in the tender and you'll be **on** the beach dancing to the band!

And after a glorious nights rest in your luxurious ocean view cabin, awake to the aroma of fresh gourmet coffee and the sound of tropical native birds. A new day, a new and beautiful destination lies ahead.
